

# Octagon from a Square

1. White side up, Fold and unfold then turn over

2. Fold and Unfold then turn over

3. Collapse into a preliminary base

4. Squash Fold

5. Squash Fold the other three flaps then unfold completely

6. Fold along a crease one round from the horizontal crease

7. Trim off the overhanging triangles

8. Completed Octagon

# Octagonal Bowl

Model & Diagrams by Martin Quinn

1. Start from an Octagon, white side up

2. Fold a point to the centre  
creasing only where shown  
Repeat for each point

3. Fold circled points to centre line  
creasing only where shown  
Repeat for each point

4. Fold point to the crease made in step 3  
creasing only where shown  
Repeat for each point

5. Fold all 8 points to the centre point  
flattening the triangles to one side and then  
the other

6. Lift and squash each of the eight flaps ensuring  
that they always overlap the same way

7. Fold each of the small points at the  
centre into the corresponding pocket

8. Mountain fold 8 small tabs behind

9. Gently press in on the centre of each  
edge making the model 3D using the  
creases from steps 3 and 4 and then  
pinching up under the squash folds from  
step 6

10. Finished bowl.
